

Virtual Fundraising

LIVE AUCTION PACKAGE #2

- 7 nights
- 3 bedrooms
- Private lanai
- Swimming pools and fitness center
- Nearby shopping and golf courses

“Our virtual fundraiser is currently the most successful virtual benefit auction in the country! We wouldn’t have this success without the Seamless team. Their experience with live-streaming events resulted in superior production value that kept our audience engaged and energized. Transitioning to a virtual event has a steep learning curve - their professionalism, patience and guidance was exceptional. Choosing Seamless to live-stream our event was the best decision we made.”

Rose Lombino
Operations and Events Manager
Friends of the Children

Deliver a High Impact Annual Fundraiser

As you shift to a virtual event this year, don’t risk losing your audience and missing your fundraising goals with a poor quality production

Your biggest fundraising event of the year just got reduced to one hour, and you need to make it count like never before. Utilizing our live-streaming experience and production know-how, we raise the bar with live virtual events by bringing attendees a broadcast-quality experience that keeps them energized and engaged.

Event Consultation

We partner with you to understand your event goals and create a customized plan to deliver a high quality, virtual production designed to capture the same spirit as your in-person event. We’ll coach you on the necessities of holding a successful virtual event without overwhelming you.

Non-Profit Packages Starting at \$3,500

We offer flexible non-profit packages and pricing options to maximize your budget. With packages ranging from just the basics to higher-end productions, we have what you need to hit your goals and fit your budget.

Live Streaming and Hybrid Events

Whether you choose our studio, prefer that we come to you, or would like a hybrid event, we’ll deliver high quality broadcasts of your speaker and events on the platform that works best for you.

Professional Production Services

Our production experts and engineers can uplevel your event to the highest quality and deliver a memorable experience with video production and post-production services. Additionally, we can create sponsorship videos and capture feeds and pre-recorded material from video conferencing software.
